Finding: Win Rate is 63.13% (315 Won / 184 Lost), and average days-to-close has dropped from ~180 days (mid-2023) to ~10-30 days (late 2024/early 2025).

Business impact: The sales cycle is accelerating significantly, which improves cash flow predictability and rep productivity - but a rate this fast should be checked for discounting or reduced deal scrutiny.

Recommended action: Audit recent Won deals for marain/discount trends to confirm faster closes aren't
